

## JOHNSON IS BEATEN FOR NATIONAL BODY

Ohio Mayor's Proxies Ignored and Harvey Garber Elected.

ALSO IS DEFEATED  
IN NATIONAL BODY

Contests Decided Against His Faction—New National Committee Named With Others.

DENVER, July 7.—Tom Johnson was defeated in the Ohio delegation today for national committeeman by a vote of 26 to 8, Harvey C. Garber receiving the majority.

The delegation refused to accept the telegraphic proxies held by Johnson of the thirteen delegates who are still en route.

Something of a surprise was created by the action of the national committee in deciding against Tom L. Johnson, mayor of Cleveland, national committeeman and firm friend of Bryan in the Ohio contest. These contests were from the ninth and nineteenth Ohio districts.

The subcommittee decided in favor of the regulars, or those who held the credentials, in both instances. When the report came before the full committee Johnson made a hard fight for his friends, the contestants, and succeeded in having the action of the subcommittee reversed in the nineteenth district. Johnson will carry the other case before the credentials committee.

The result of the various caucuses for members of the various committees so far as reports have been received are as follows:

## Democrats Fight on Plank For Bank Deposit Guarantee

Conservatives Fear It Will Jeopardize Sound Banking and Prove to Be Another Free Silver Stumbling Block.

By J. C. WELLIVER.

DENVER, July 7.—Led away by the sophistries of "Coin" Harvey, the Democrats in 1896 wrote into their platform an economic fallacy on the money question which, appearing tremendously popular at first, would not stand analysis, and which finally led to the defeat of the party at the polls. That was sixteen years ago.

The party is getting ready to do the same thing again this year. Sixteen years ago it was a blunder, and in the main, a forgone, blunder. But now it is proposed to insert a plank demanding guarantee of bank deposits under Federal and State laws; the Federal Government to provide the scheme for guaranteeing national, and the States to devise the method of insuring State bank deposits.

Nobody could have been through the West lately and not realize that the proposal is overwhelmingly popular. Free silver at the height of the sentiment in its favor never stood higher. Republicans and Democrats alike have been carried away by it. The other day a bank in Oklahoma—a State bank—failed. Next morning there was posted on its front window a notice by the State

banking superintendent reading in this wise:

"This bank is closed by the State banking department. All depositors will be paid on demand by the State superintendent of banking. Depositors will be paid on presentation of their pass books at his office."

There is no denying that it was a fine object lesson, and timely, from the viewpoint of advocates of the plan, which is in effect in Oklahoma. But economists, students, and analysts of the facts, protest that the proposal is wrong. It develops here in Denver that the conservatives are bitterly opposed to a plank declaring for the plan. Mr. Bryan wrote it into the Nebraska platform, and has been assuring his callers that it must be in the national platform. Yet the fight on it is developing force hourly, and the Eastern men insist that they will only permit it to go into the platform after a fight and a defeat. They believe that, once adopted, it would be taken up by the Republicans and Democrats alike have been carried away by it. The other day a bank in Oklahoma—a State bank—failed. Next morning there was posted on its front window a notice by the State

## GARY FORESEES BOOM IN BUSINESS

Steel Board Chairman Says Confidence Is Needed to Bring Back Better Times.

NEW YORK, July 7.—Former Judge Gary, chairman of the board of United States Steel Corporation, before sailing for Europe today, spoke in terms of the greatest confidence of the immediate betterment of financial and business conditions in this country.

"Confidence," he said, "is the principal thing that is needed. Many of the railroad companies," said Judge Gary, "have already taken steps to finance their requirements, and all are beginning to realize that money is plentiful and cheap, and easy to obtain when first-class securities are offered. All that is required to bring about satisfactory business conditions is the restoration of perfect confidence, and that appears to be at hand."

"We shall do business on a basis somewhat different and very much better than it has been done. We shall be more cautious, look farther ahead, keep more closely within the limits of our resources; but we shall have confidence in the future."

"The necessities of the purchasing community are greater than ever before. The financial conditions are improved and improving; the legislation recently enacted is a step in the right direction."

## MOOSE IN MINNESOTA TOWN.

Three large cow moose caused a furor here this morning by invading the city limits like any other respectable domestic animals. They were first seen in the vicinity of Tenth avenue grazing in a pasture with great complacency. Their ambitions to become civilized were disturbed by two pugilistic dogs, who chased them through two barbed wire fences and succeeded in thoroughly breaking up the plans of the invaders for settling down in Two Harbors—Two Harbors Correspondence St. Paul Dispatch.
